TESTIMONIAL - G100 FOUNDER

“ Business grew even when I was 2 years behind bars. ”

Our family life is very comfortable. Have the freedom of time and money. We can do what we like at any time without being restrained by anyone. Every day is a holiday for us. There is no difference for us between Sunday, holiday or Monday (working day) since 2014.

Aside from a high-income and having the freedom of time, what is more important is that we get an income guarantee. If anything happens to me, this business can be inherited to my wife and children.

Income Increases Even During The Hardest of Time

It has already been proven where there has been a misfortune for me for 2 years, that is, I was imprisoned for giving charity of RM200. For 2 years, my wife and I could not run our business at all. That was the most painful period of our lives.

2019 and 2020 were the year of sorrow for us.

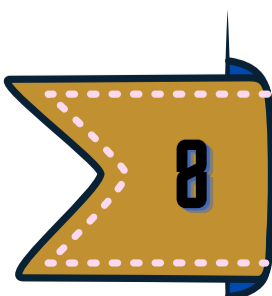

Even so, the business we built before did not just collapsed. In fact it grew even bigger, and our passive income increased beyond our expectations. Despite the hardships and grief, we had no financial problems.

Alhamdulillah. All praises only to Allah as He is The One who granted everything to us from various way that we can't even imagined ourselves.

The year of sorrow has already passed, the year 2021 is a new phase in our lives as husband and wife. We set the goal to produce 1,000 Master Dealers (achieve Financial Freedom) by 2024, insyaAllah.

We want to help more people to come out of financial crisis, have enough savings, and finally achieve Financial Freedom like us, insyaAllah.

TESTIMONIAL - STUDENT

“ **Now, it is not a part-time business anymore.** ”

I started building this business when I was 20 years old. At that time, I was 8000km overseas. Now, this is no longer a part-time business for me even though I now work as an engineer. It is the future of my family and I. Although at first I did not see the results, but I keep going and keep doing do the right thing patiently. If we understand how beautiful passive income is, we will not waste the opportunities lie wide before us.

- *Muhammad Syarifuddin bin Mohd Jamil*

Graduate of Mechatronics Department, University of Wollongong Australia / Master Dealer

“ **Retire before graduate.** ”

"Retire before starting work ", this is what I dreamed of about 5 years ago. My greatest blessing is that I have awareness and exposure to business and financial knowledge as early as 18 years old. I began as a gold saver with 0.5 gram, then became a Public Gold dealer. Praises to Allah, without realising it, there are over 1,600 gold savers whom I have mentored now; majority of them are students like me. With the goodness spread through Public Gold business, I have now secured a passive income even higher than the fresh graduate salary. This allows me to achieve my dream 5 years ago; retire before graduation. Alhamdulillah.

- *Abdur Rahman Al Amin Bin Ismail*

Final Year student of Finance Department, Universiti Utara Malaysia / Star Founder Master Dealer

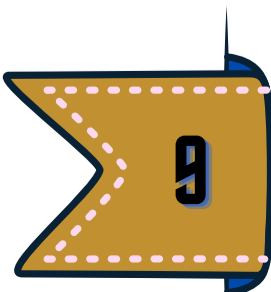

“ **Feels the 'Time and Financial Freedom'.** ”

Thankfully I got to know Public Gold in early 2015 while still studying in my first year in Medicine.

From a very extravagant person, I managed to keep savings that allowed me to get married and bought my first home through gold savings. While saving gold, I am also looking for a business that can give me 'Time and Financial Freedom'. In my busy working schedule, I only see Public Gold as a platform for me to achieve my dream. Yes, only Public Gold. Alhamdulillah, my passive income as a PGBO has exceeded my actual working salary now. I believe more young people can also succeed and become multi-millionaires through Public Gold platform and support from G100 Network team; if they focus on making this business an exit plan. InshaAllah.

- *Dr Mu'az Mahadzir*

Graduate of Medical Department / 2 Star Founder Master Dealer

“ Public Gold business is incomparable! ”

I work as an architect and still practicing at Azman Bilaji Architect in Johor Bahru since 2003.

I started saving gold bars since June 2018. Once I started saving gold, then only I realized my way of spending money was unhealthy.

In September 2018 I decided to become a gold dealer because I wanted to continue buying gold at a discounted price.

At the end of 2019, I attended the PLT program in Ampang for 2 days. When I returned from the program, I made up my mind to start running this gold business more seriously.

So far I thought my business as an architect that I run until now is the only source of my business until the end of my life.

However, after making a comparison of financial freedom and passive income, I found out that Public Gold business was incomparable. I have managed to become a Master Dealer in 15 months, starting from the date I was determined to educate more people to understand the benefits of saving gold.

- *Haji Azman Bilaji*
Architect
/ Master Dealer

“ Busyness is not an obstacle. ”

My extravagant nature was the impetus for me to look for alternative savings, namely gold.

I started getting to know Public Gold since 2017, starting as a gold saver, then upgraded to a gold dealer. In the busyness of my day-to-day work as a doctor, it did not deter my deep interest in this gold business with Public Gold.

Alhamdulillah, I have produced 10 Master Dealers and have a network of over 15,000 gold savers now.

Thank you my Mentor En. Zulkifli Shafie!

TESTIMONIAL - BUSINESS OWNER

“More opportunities to help people.”

I am the founder of AiSuka Bazaar, a provider of easy and affordable business sites for the past 10 years. Basically, my business has become auto pilot where it only runs 2 days a week. The sites are managed entirely by my staff. I already achieved financial freedom where I am always free to go anywhere without planning my own vacation.

Destined, one day my brother was laid off. To help him, I accompanied him to a seminar regarding Public Gold business. Upon returning home, I felt nervous. I know the benefit of gold, but I didn't really encourage people to save gold. Finally I decided to be serious about Public Gold business.

After 68 days of seriously doing this business, I managed to achieve Club 100. And 70 days later, I secured 300 frontlines to qualify me to be a Master Dealer.

Indeed when I began Public Gold business, I could see more and more opportunities to help people. We can help people to save gold, we can help dealers to succeed in Public Gold business, thus achieving the ultimate dream of financial freedom.

- Mohd. Nazim Bin Haji Badruddin
*Founder AiSuka Bazaar
/ Master Dealer*

“Some of my dreams came true.”

I bought my first 0.5g gold from Public Gold on 5th January 2018 after reading mohdzulkifli.com blog. In March 2018, I attended the Public Gold seminar in Shah Alam presented by En. Shamsudin Kadir.

From there, I grabbed the opportunity to become a dealer because I was attracted to the 1% incentive which I considered as a self purchase discount. I was able to attract over 50 of my closest relatives in 2 months to become gold savers.

Since then I have seen the simplicity of this business environment and have been able to educate others about the benefits of gold saving for better financial management. I am lucky and fortunate to be part of G100 Network family. With the Business School Model by G100 Network, I can learn more useful knowledge to share with others.

By April 2020, I had successfully locked the Master Dealer title. Currently there are almost 890 gold savers under my mentorship. Alhamdulillah, I have achieved some of my dreams, including performing the Hajj in 2019, all because of gold saving.

- Amran Bin Bachok
*Managing Director of Teknologi KBSE Sdn Bhd
/ Master Dealer*

TESTIMONIAL - T20 GROUP

“Business that is needed one day.”

My first purchase qualified me to be a dealer, even though I was not yet interested in the gold business. That eventually changed after joining JLT in February 2017. There is huge differences between passive and active income, but I still chose to get serious in the Public Gold business. I went on with a tidal wave, but remained convinced. It was a business that is needed one day even though at first, the commissions received were not much. I became a Master Dealer in February 2021 and the income from Public Gold increased 3 times. So I can speed up my journey towards financial independence, and fulfill my dream of developing several houses on my own land without any bank loan.

- *Mohammad Sabri Bin Yaacob*

*Senior Chemist in Oil & Gas Industry
/ Star Master Dealer*

“Income has exceeded my salary at work!”

My husband and I planned to retire at the age of 45, so we need to find a simple business as a leisure activity someday. I became a Priority Dealer in 2019. At first it didn't occur to me that this would change our retirement plan. My first incentive as a Public Gold dealer was only RM251. As the HR Manager and investor, the value of RM251 is very small. Honestly, I underestimated it. Unexpectedly my empire grew rapidly. The income after 2 years in the Public Gold business has exceeded my income as the HR Manager who has been working for 17 years. I started to see how big the potential of PG business and it wasn't just a freelance job.

- *Marlia Binti Ramli*

*HR Manager in one of Multinational Company
/ Triple Star Founder Master Dealer*

“Everything is just at your fingertips.”

A stable career and high income is everyone's dream. However, a big rank also means a lot of responsibility and work pressure. I was thinking until when should I work and how much savings do I need for early retirement? During MCO 1.0, I was looking for a safer savings method because at that point I wanted to expand my financial portfolio towards early retirement planning. That was my starting point as a gold saver as well as a Public Gold dealer. Honestly, my actual career was so busy that I didn't have time to share the knowledge of gold. Therefore, time management is very important for me who do this business as a part-time. In my busy work, I have managed to achieve the Top Producer Award almost every month. Public Gold's business platform is very relevant in these days as everything can be done just at your fingertips at any time.

- *Noralida Binti Md Amran*

*Senior Manager in Oil & Gas Company
/ Master Dealer*

TESTIMONIAL - I SAID BYE-BYE BOSS!

“I resigned without looking back.”

Honestly, I am not a fan of gold. I began to know Public Gold in June 2017. My challenge is my own husband being the biggest obstacle. Furthermore, my boss at work was also unhappy when he knew I was doing a business related to gold. At that time, my position as Manager of Ar-Rahnu was transferred to Finance Officer at the headquarters. That's when I began blocking and unfriending bosses and friends at work, in my social media. I did my Public Gold business silently and finally on the third year, I tendered my resignation letter without looking back. Allah's plan was indeed beautiful. After 3 years in this business, Allah opens up various opportunities from unexpected directions.

- *Norhafizah*
Ex Manager Ar-Rahnu
/ Master Dealer

“Live free without being tied to the ‘rat race’.”

My journey as a gold saver began in 2014 when I discovered a new collecting hobby. In mid-2015, I decided to become a Normal Dealer and a few months later, upgraded to a Priority Dealer. Since I consistently shared the knowledge of gold properly, my monthly income from Public Gold exceeded my actual salary. Hence, I decided to quit my job in May 2018. Alhamdulillah by making Public Gold business full time, I live more freely without being tied to the 'rat race', thus achieving financial freedom and changing my life for the better.

- *Md Haris Bin Abdul Halim*
Ex IT & Web Technical Support
/ Master Dealer

“The easiest way to achieve your dreams.”

I started saving gold since 2011, when I was still a student. In November 2014, I got a job as an oil palm mill engineer at a GLC company, and was sent to Sabah. Meanwhile, my wife works in Kelantan. We had to live far apart with thousands of kilometers separating us. This way, we felt the difficulty to plan our future properly. So, we looked for whatever source of income which allows us to live independently wherever we like, not limited by time. We learned about real estate and tried to start a business making crackers and selling jerseys from Kelantan. Since we are gold savers as well, we find that the Public Gold business is the fastest and easiest way for us to achieve our dreams. Thankfully, after 4 years of building our Public Gold business, finally on 31 August 31 2020, I decided to resign as an engineer and become a full time father.

- *Mohamad Hafiz Shafie*
Ex Mechanical Engineer
/ Double Star Founder Master Dealer

TESTIMONIAL - TEACHER

“ I retired 5 years earlier.”

I began my career as an Arabic teacher in 1991 and opted for optional retirement in June 2018 after serving for 27 years. I also taught extra Arabic classes at tuition centres and Maktab Perguruan on weekends and year end holidays.

The first and second years of running the Public Gold business were rather a difficult phase. I ran this business on my own way. Finally, thanks to the knowledge gained from the mentors and G100 team; and consistently conveying the knowledge to the community, my business empire is growing.

10 years ago I never dreamed of getting such an opportunity. I was able to achieve financial freedom and retired 5 years earlier than the actual date. I also managed to own two more properties and top up my gold saving. Alhamdulillah, I also receive a passive income of 4 to 5 figures every month. Soon my business empire will be passed on to my grandchildren.

- *Nor Azah Binti Ahmad*
**Teacher with a Bachelor's Degree in Arabic
/ Master Dealer**

“ Apparently this is the right exit plan!”

I began working as a teacher in Johor. At the end of 2014, I read an article from my mentor's blog mohdzulkifli.com. I followed his blog and after over 6 months, I started my first gold saving.

Gold is the most effective method of changing my spending habits until I could successfully organized my dream wedding without any loan from bank. Only from my gold saving.

After a year of saving gold, I realized that many of my friends were interested in saving gold. After meeting my mentor for the first time in April 2016, I began to seriously shared the benefits of keeping gold to the public.

However, my luck took turn when I was transferred to Marudi district in Miri, Sarawak. There is no Public Gold branch there yet at that time. Internet network is also not available at school. But the challenge did not break my spirit. I always consult with my mentor. From there, I took the initiative to organize a Gold Saving Seminar presented by our mentor at a hotel around the city of Miri.

The platforms provided by Public Gold and G100 Network help me to build and changed myself for the better over the last 5 years. It turns out that Public Gold is the right exit plan for me to achieve financial freedom and time freedom. Everything I've worked on since 2016, has not only grown exponentially but has provided a passive income of up to 5 figures a month.

TESTIMONIAL - HOUSEWIVES

“Did not lose customers even when I stopped for a while.”

I managed to get a Club 100 award and a Superstar Dealer in just 6 months after I followed PGIS. Due to certain constraints, I had to stop for a while. When I made a come back in 2020, customers who have registered with me still remain. That's the beauty of PG business, even if you stopped for a long time, we won't lose our existing customers and our business can be inherited! Alhamdulillah, I am eligible to become a Master Dealer in February 2021. My income has also increased close to my salary as an engineer before! What is more satisfying is I could add value to the lives of customers and dealers under my empire, while contributing to G100 Network team.

- Shikin Shawal

**Successful Housewife with 5 kids
/ Master Dealer**

“Everything is complete and ready for our perusal!”

Everything is ready, I don't need to worry about making posters, managing the team and even expanding the empire. With this system, I managed to achieve the Master Dealer title in 58 days, to get 300 frontlines and also RM300K personal sales. At first I didn't feel confident to do it, but it turned out to be a success. My target was reached a month earlier. Thank you to all G100 Network team committees.

All the dealers under my empire fully utilized the tools and attended all the business schools that G100 has provided. I am confident to continue to be in this business and produce 50 Master Dealers in 2024, insyaAllah.

- Nur Suaidah

**Successful Housewife with 3 kids
/ Master Dealer**

“I am able to share my earnings with others & contribute back to society.”

Does time and financial freedom really exist? This is a question that I did not believe since I started work in 2006. My husband was destined to get a job offer in Indonesia and I decided to resign so that my family and I could migrate there. It was then that I felt how enjoyable the freedom of time was. But I lost my source of income when I decided to resign, until I read the blog mohdzulkifli.com.

Alhamdulillah, all efforts were paid off with the achievement of Star Master Dealer status on 28 January 2021. With the incentives received, I was able to share my earnings with my parents, save for my children's education, donate and pay gold zakat. My next target is to produce 10 Founder Master Dealers thus achieving a monthly incentive worth 100g of gold as passive income.
