GAP
Gold Accumulation Program™

SAVING FOR THE FUTURE

SAP
Silver Accumulation Program™

Public Gold is the first company in Malaysia to have launched the Gold Accumulation Program (GAP), where it allows the public to accumulate physical gold in a group allotment with a capital as low as RM100 only. It is a simple, inexpensive, and shariah-compliant platform for people to start saving gold to protect their wealth.

The program mechanism is also very simple. It is like the concept of a savings account in a bank, the difference is that it does not collect RM, but in grams. Grams of gold will be accumulated in the account until the depositors decide to withdraw the physical gold and keep it by themselves. Grams of gold can also be sold directly without removing physical gold for instant cash.

In addition to GAP which received good response from the public, Public Gold also introduced the Silver Accumulation Program (SAP). It is an alternative or additional option for people to venture into silver metal investments with a capital as low as RM100. Silver savings likewise have good profit potential in the long run.

So, start saving on a small scale with the GAP and SAP platforms that we provide to build a better future.

Contact any Public Gold dealer you trust to start gold and silver savings today.

AURORA

ITALIA

Since the start of operations in 2016 we at Aurora Italia have strived to create unique designs for every celebration. Collaborations with Disney®, Marvel® and Swarovski® symbolize the brand's confidence in our products.

We at Aurora Italia are confident of producing affordable designs without sacrificing the quality of our products. With an effort to innovate and be creative, our designs are subtly designed by a talented team of designers. The resulting work celebrates your personality by applying the finest quality materials such as First Grade Swarovski Cubic Zirconia (CZ) gemstones with Swarovski Zirconia laser marking and could be verified via Swarovski QR Code.

Premium Italian Aurora jewellery is made using 925 pure sterling silver metal with 18K yellow gold plating, 18K "Rose" gold plating and 18K white gold plating.

Aurora Italia also produces special edition gold wafers.
